

**GET CERTIFIED IN THE
WORLD'S LATEST AND MOST COMPREHENSIVE COMPUTER FORENSICS PROGRAM**

Cybercrime is the most serious threat to the presence of individuals, corporations, and governments on the Internet. **Is your organization ready to combat against it?**

Cybercrime costs organizations millions of dollars. **Is your organization capable of preparing forensically sound digital evidence that is admissible in a court of law?**

Many distinguished information security experts believe that Computer Forensics is the antidote to Cybercrime. **Does your organization have designated computer forensic professionals to identify, track, and prosecute cybercriminals?**

The release of EC-Council's Computer Hacking Forensic Investigator version 8 (CHFIv8) certified training program presents a detailed and methodological approach to computer forensics and evidence analysis. **Loaded with over 200 hands-on labs and 500 cutting-edge tools**, the new version 8 consists of the most advanced forensics techniques used in the cyber world.

This improved skill set will prepare IT professionals to meet the toughest challenges in fighting cybercrime. If you or your organization requires the knowledge or skills to identify, track, and prosecute the cybercriminal, then this is the program for you.

EC-Council's CHFIv8 will be making its debut on February 27, 2012 through a Global Launch to 20 of EC-Council's preferred training partners. An exclusive Launch Class Package is available to those who join the Global Launch Class:

1. A complimentary 4 day iLab Access Pass worth 100 USD
